Bruce A. Van Note
COMMISSIONER

December 12, 2019
Subject: Fire and Security Monitoring,
Maintenance, Upgrades and Repair
State WIN: PH20191127F&S
Location: **Statewide**
Amendment No. 2

Dear Sir/Ms:

The following question has been received:

Question: The contract is for monitoring only, however, we need to make sure all existing system have a panel or dialer that we can manipulate. Some other companies use proprietary equipment that may cause us to change or a portion or all of the equipment to make this transition functional. If we don't know what panels or dialers are in each location it's tough to determine if the \$20,000.00 allotment is enough..

Response: If locations require an update or upgrade to become compatible with the Contractor's systems, it is the responsibility of the Contractor to send a work request and estimate to the Contract Administrator. It will be the responsibility of the Contract Administrator to add monies when the upgrades exceed the amount specified in the Contract.

Consider this change and information prior to submitting your bid on **December 18, 2019**.

Sincerely,

George M. A. Macdougall P.E.
Contracts & Specifications Engineer
